

Antimony, Utah.

June 20, 1940.

Mr. T. H. Humphreys:  
Salt Lake City, Utah.

Dear Mr. Humphreys:-

As per your recommendation yesterday, We are Enclosing  
Petition To State Engineer for a person to come on to the ground  
with the special Instructions to settle existing trouble which  
is now confronting the users of the Coyoto Creek ,

There are 17 water users, I have the Signatures of 8.

Hoping this person can come immediately as some of the Farms  
which the water has been shut off are now burning.

Thanking you,

Sincerely yours,

B. L. Mathews.
